A FALSE RUMOUR.

An alarming rumour gained currency in the Colony on Friday siternoon that several best ever produced in the Colony will be supplied. Portuguese boys had been taken away by the s.a. Tenyo Maru to work in the sugar plantations at Honolulu. It appears that a number of boyd represented themselves to the agent in Hongkong as Filipinos and further said their ages were 18 respectively. No contract was made but \$18 a month and free quarters were promised them on landing. Two, however, it is understood, were refused by the Health Officer of the Port as they were suffering from trachoma, while the parents of the others, except one, got wind of the affair and promptly took their sons off the ship. One boy has proceeded by the Tenyo Maru.

COSTS OF EXTRADITION CASE.

To Avoid a "Frightful Tangle."

At the Supreme Court this morning the Acting Chief Justice (the Hon. Mr Rees Davies, K. Z.) mentioned the matter of the costs in the successful application for the making absolute of the writ of habeas corpus in the case of Sun A Wan, whose extradi- The Company's Steamship "SUI-AN," tion the Chinese Government are seeking. He stated that they were disposed to let the matter stand over as there was to be an appeal to the Full Court on practically the same facts, which appeal was to stand over until the return of the Chief Justice, They therefore thought it would be better for the question of costs to also stand ove.

The Acting Attorney General (Mr F. A. Hazeland) said he could not consent to that arrangement.

The Acting Chief Justice said there was an objection taken by the other side that case as Attorney General he should not deal with the matter.

The Attorney General-I want to argue

The Chief Justice-I am afraid it is a matter for my own decision, Mr Attorney. Although as a matter of fact I know next to nothing about the matter the other side suppose that I had been associated with it

as Attorney General.

The Attorney General-I say the Court cannot give costs against the Crown and that they should not even if they could. Mr Slade, who made the application for the making absolute of the rule, now said he agreed with the Attorney General's view. He understood that as soon as Mi Justice Compettz went Mr Hazeland would rise to the Bench. If the matter was left and Fan supplied in all Capins. over until then they would get into a fright

ful tangle. So it would be very much better for their Lordships to take the matter, It was decided to fix a date later for the hearing of the point raised as to costa.

DON'T TAKE THE KISK. WHEN y a have a bad cough or cold do not let it drag along an il it beof passmonis, but give it the strentlen it desires and get rid of it. Take Chamber lain's Cough Lamely and you are sure of prompt rel of. For all by all dismiss.

Indigestion

40 Kentish Road, Handsworth, Birmingham. Dear Sirs,-It is now about five years since Angier's Emulsion was recommended to me by a doctor, and I have found it invaluable for indigestion and stomach catarrh, as well as for toning up the system. I was very much run down when I first took it, but improved immediately, and gained in weight 15 lb. in twelve weeks. I have recommended the Emulsion to several of my friends for various complaints, with good results. It proved especially good for a friend who suffers from inflammation of the bowels, who was completely cured, and has been at work (Signed) F. THOMPSON. regularly ever since.

(PETROLEUM WITH HYPOPHOSPHITES)

HEALING AND STRENGTHENING.

Angier's Emulsion soothes the mucous mem-brane of the stomach and intestines, arrests fermentation, checks bacterial growth, and promotes normal, healthy action of the bowels. It is a splendid tonic to appetite and digestion and it builds up health and strength. Doctors prescribe it for chronic indigestion, nervous dyspepsia, stomach and intestinal catarrh, chronic diarrhoa, etc. It has cured many obscure cases after other remedies had failed. Angier's Emulsion is also invaluable for the relief and cure of coughs and lung affections. ANGIER CHEMICAL CO., Ltd.;

SCOTTISH LETTER.

(From Our Outs Correspondent.) RE-UNION OF SCOTTISH CHURCHES. EMERUROH, January 4.

that we can realise how wonderful is the change in the relations of the Presbyterian Churches of Scotland. To a generation which once more observes holy days, which | they are cuphemistically called. There are cries a truce to the war of faction and the Striving of tengues that it may listen to the and undoubtedly Hogmanny and New Year's Day were disfigured by excess and cold song of peace, the language of the rowdyism. But it is to be said that there COAL DEPARTMENT. old song of peace, the language of the controversialists of the last century is is a stendily growing public opinion in unthinkable. When the old phrases are favour of a more rational celebration of uncarthed, we read them with a shock of our great national heliday, and that where pained surprise. And what has taken the mark is overstepped it is among a class place within these last few days will be influences. While we are jealous of ancient news of the most astonishing kind to | Scottish customs, and even confess to a Scots overses who have been for a little liking for characteristic Scottish prejudices, time out of touch with the home country.

which perhaps accounts for its success,but the general result of it has become survives, it is taking a modified and more known. The large and representative Joint Committees of the Church of Scotland and the United Free Church struggle of the keenest fought General assembled in continuance of their efforts to bring about some basis of Union. When the "fathers and brothren" had constituted the meeting with prayer, a the word "Royal" shall be prefixed to the well known minister rose and gave the tittle of the Faculty of Physicians and Tru Address for above : 'IWASAKI. lead. He said they had met many times Surgeons of Glasgow. The Faculty was but appeared to get no "forarder," be- started 310 years ago in very humble cause they talked too much about the circumstances, but now, with its sister "principles" of past years; and he followed this up by making a proposal which took every one's breath away, that a sub-om-was the first in the Northern Kingdom, mittee of laymen be appointed to confer if not indeed in Britain, to institute and bring in a report. Laymen, he added clinical examinations. know little about the past, and much about the present. Strange to say, this motion, which meant the abdication of the clergy in favour of the laymen was agreed to unanimously. A body of gentlemen well known in business and legal circles was immediately nominated, and they trooped out to a side room to consider the matter without the interference of the

When the laymen returned to the hall, they announced that they thought they had "pulled it through,"-the phrase was apt if homely. They recommended, first, that the Assemblies of both Churches should issue pastorals enjoining all ministers and office-bearers to cultivate friendly relations and acts of amity and good-will as a preparation for union; second, that the divinity students should attend the same classes; and third, that in order to svoid legal interference, from which they had greatly suffered, the two Churches should ask Parliament to sanction some well-considered financial scheme; guaranteeing the freedom of the Churches to carry it out without hindrance, and providing that this sanction should be

"Pray that Jerusalem may have Peace and folicity."

The words were pealed forth by men who seemed to feel that the strifes of weary years had been closed, and that peace indeed had come. It was a wonderful scene, and the effect of it may extend through all the coming years in Scotland.

THE SCOTTISH CANALS.

The Royal Commission on the canals of the United Kingdom have issued their final report, which deals principally with inland navigation in Scotland. It will be remembered that some time ago the Committee of Imperial Defence reported that a ship canal between the Forth and Clyde "would unquestionably posses some strategic value," but that this was not so great as to justify the expenditure upon it of a considerable sum of public money, or the guarantee of interest on the cost of construction. Taking this report of the Defence Committee as their basis, the canal Commissioners are only able to recommend that the shipping and other interests concerned should consider the raising of sufficient funds and ascortain the extent to which Government aid would be forthcoming. Of course this colourless finding does not close the question of a ship canal through the centre of Scotland; but its effect will be to shelve the scheme for several years. As to the Ca'edonian Canal, the Commissioners request the Government to take into consideration the wisdom of making further annual grants for improving the waterway by lowering the summit level between Loch tion of the Crinan Canal so that it may be used by the largest ships at present plying between the Western Islands and the Firth COMPANY PROMOTING IN SCOTLAND.

During the year, the record number of 400 joint-stock companies was registered in Scotland, with a total capital of £8,031,189; an increase on last year of 125 companies and £2,105,914 of capital. The indication of comparative briskness in the floating of these concerns, however, is accounted for by the large number of small panies. Recreation in the form of MEL HERS & CO., roller-skating is responsible for companies. Rubber has 17- companies registered, and a capital of £931,250, against 1 company and 25000 last year. Four of these are private concerns, and their capital amounts to £81,250 of the The largest company has a capital of one million,—the private one of James Finlay and Co., spinners, manufacturers, and bleschers, Glasgow. Among the companies are the Edinburgh Tebrau Rubber Co., 2150,000; a Glasgow rubber company for working in the island of Jugra, 2150,000; a third company, for trading in Ceylon, £150,000; and the Straits Mortgage and Trust Co., £200,000. CHRISTMAS IN SCOTLAND.

For long weary years Scotland was a stranger to the genial influence of the Ohristmas sesson. The rest of the Christian world relaxed into geniality, bubbled over with good-will, droamed the dream of peace. But Presbyterian Scotland, with its churches shut and its music silenced, thanked Heaven grimly that it was not as these others. The test of orthodoxy in the Scottish divine was the fervency with which he denounced Christmas and all such Popish idolstries. What a contrast is presented by the Christ mas of Scotland to-day. All over the country the churches, are open, carols are sung the poor are gladdened, and under the influence of the warmer religious at mosphere, the old war-cries are hushed, the brandishing of the toolesisatical broadsword has osseed and the stern

Puritanic face of Presbyterianism has assumed the joyousness and good-will which mark the Christmas of other lands. New Year's Day will doubtless remain our popular holiday, although the old customs which used to usher it in are dying out. But the Scottish Yule is being ravived, in a purer spirit, and in a finer and higher It is only by recalling the bitter past

Nineteen hundred-and-ten was "brought in " with alf " the usual observances." complaints from the pulpit and in the

press as to the prevalence of drunkenness there is an increasing objection to practices which have neither meaning nor comeliness to excuse them. "First-footing" is on the On the eve of Christmas, a meeting was

held in the Auld Kirk Assembly Hall in | wane... This is to be regretted; it is a Edinburgh. It was a private meeting; quaint and kindly Northern custom. But was too much identified with whisky and with too much whisky. Where it still pleasing form. The "daft days" are now over, however, and once more we are back to regular collar work, and to the strenuous Election that this generation has known.

HONOUR TO A GLASGOW FACULTY. The King has signified his pleasure that

STATE OF TRADE. Reports from Scotish ports show that the total export of coal for the year was 15,338,000 tons, compared with 14,525,000 tons for the corresponding period of last year. From Forth ports and Tayport, the export was 10,143,000 tons, and from the Clyde 5,092,000.

The Scottish Steel trade for the past year is reported as poor. The malleable iron trades as described as having had the worst year in living memory. "Early signs of betterment, however, are prophesied

Supper was served about midnight. Ad near a group of young men, who miral Sir Hedworth Lambton took in Mrs W. A. Graham. The subsequent tosst list was commendably brief, Dr T. Hoyward Hays, as chairman of the Club, gave the cigar. In return for this courtesy, when health of The King, which was pledged Dancing was then resumed and continued until an early hour.

On the 22nd January, a cricket match between the Royal Banakok Sports Club. and an eleven from the Kipg Alfred was commenced at the Sports Club. Winning the toss, the visitors decided to bat first. and opened their venture with Lieut Tovoy and A. B. Gardiner. With the score at 7, Gardiner was caught by Craig off Johnson, and Lieut. Haddon filled the vacancy. The total was carried to 24 before the next wicket fell. At the tiffin interval the total was 99 for five, Lieut. Mullineux being not out 17. There were nearly forty at tiffin and the Paget trophy was exhibited. joined Lieut. Mullineux and the century was hoisted. At 104 the former was bowled by Sutton, and Fleet Surgeon Beadnell went in. Lieut. Mullineux was scoring freely and when the Bungkok Times reporter left the ground, was not out with 37. This included two sixes. The attack was shared by Johnson, Sutton and Gore.

At night, Sir Hedworth Lambton and staff were to be the guests of His Majesty at a banquet at the Dusit Part Palace, and Prince was to give a dinner in their honour. The visit terminated on the 24th Jan. and the Admiral was to entertain a party of between thirty and forty to tiffin on board the King Alfred.

The China Mili.

Hongkong, Saturday, February 5, 1910.

AN UNAPPRECIATED PROFESSION.

ing, is very sorrowful. After surveying | modesty, and this counts for much mankind from China to Peru it finds when we balance up the account. To that the noble profession of which it is quote again from our contemporary :such an eloquent and influential a mouth-piece is the least appreciated of portance in the social world, and have any. Indeed, after reading through the never demanded, or attained, the poeieditorial statement of grievances we also | tion to which their work entitles them. ing the engineer, beloved of KIPLING and the man of business to direct the though he be, is a much misunder- gathering of the harvest they have sowed, stood man. And this notwithstand- and to pose as its authors. One reason ing that the engineer has made labour for this is that the practise of engineerso efficient that men enjoy greater ing is so engrossing and fascinating that contemporary, has lengthened life, from most other businesses and profesadministration of justice easier, and bettered all the conditions of existence. Yet this notwithstanding he is neglectingly puts it:-

"No one appears to think that the engineer has any right to interfere in the world which he has created, except That legislation should be passed to give effect to the opinions of engineers as a body, or that social usages should be moulded under his influence, has never yet occurred to the P Atish public. We have health acts and local government acts inspired by the medical profession, laws dealing with the liberty. of the subject and the conveyance of property devised by the legal profession. education acts modelled to meet the requirements of the clergy, and so on Even the newer professions of dentistry, accountancy, and patent agency can command respectful attention from the legislature. In social matters, again, the teachings of other professions than ongineering are listened to with respect in the first instance, and then elevated into a cult. Doctors insist on an adequate supply of fresh air, and mediately we find people living in continual draughts. The clergy preach the sacredness of Lent, and men and women who are pugans at heart will

Fot marry in that season. Modister

NEWS OF THE DAY,

proclaim that a pertain colour is to be

the coming fushion, and immediately

every woman rushes for a hat of that hue.

How different is this from the reception

accorded to the ideas of the engineer!

accepted and raviled because they are not

more wonderful than they are. It is not

travelled at 20 miles an hour in a wooden

box that stopped at every station, and

was often shunted for balf an bour t

let a mail-train pass. Now he sits on

stop at 54 miles hour! Yet he will often

gramble if there should be 'signal

stop'; or if a gale should make the train

ten minutes late. His whole attitude to

the milway, which from beginning to

end is the product of engineering, is one

the fact that travel becomes more rapid

that fares are never increased, but often

thought that the engineer would,

least, have gained some little esteem

for what he has done in the way of

cheapening and improving food, for

that appeals to the intellectual and

unintellectual alike. He has halved the

cost of bread and improved the quality

he has rendered meat the poor man's

daily food, instead of, as formerly, a

weekly or monthly treat; he has given

us fresh fruit and vegetables all the

> CHURCH SOCIAL AT KOWLOON.

Colony's Bad Church Attendance.

In the matter of clothing and household A most enjoyable social gathering arranged by members of St. Andrew's Church Vestry was held in the Kowloon British Schools last evening. There was a large attendance of ladies and gentlemen. During the evening the choir, under Mr B. ed them from the thraldom of the Frost, rendered a number of glees in excellent taste, while soles were contributed the sewing-machine, enabled them to by Capt. Aitken and Mr E. B. Ayris. The increase the elaboration of their dress needle-threading competition for gentlemen and the whistling contest for ladies provided plenty of amusement. Refreshments were served, and altogether a most happy fault; the engineers themselves are time.was spent.

"They have never realized their im- ment and shown those kindnesses. have to admit that to all outward show. They allow the statesman, the politician, Hongkong and Shanghai. So he had taken comfort and leisure than they formerly it fills the mind, and leaves little desire their utmost to see that the Church did. The engineer, according to our for other pursuits. In this it differs (Applause). To speak of Church matters. improved transportation, made the sions, which, even to the conscientious they were going to try and get it by March man, are rather a source of livelihood signified his intention of attending the than an intellectual contentment. The result is that the engineer does not feel sum of \$5,000 by that day. (Applause) ed, nay despised. As Engineering feel- the want of a wider field to provide body was enthusiastic and absolutely red scope for his abilities; his profession absorbs all his energies and fills all his promises had been made up to the present, interests. When he joins an institution (Appleuse).... That represented a very few it is the technical side that attracts him. and when he is elected to the council those people had, the \$5,000 could easily table the same idea possesses him. He they were about to lose the services of works for the success of the society, but only temporarily he hoped. He had had great ship and to raise the quality of the con- the help of any organ, nor had he such a tributions, his point of view seldom strays beyond the threshold of the congregation therefore felt that they would ship property had been made to his

Fortunately the Institution of Civil Engineers in England and the American promised to look into the matter and before long we shall no doubt see the future date. (Applause). own, which his excessive modesty has so long denied him. Meanwhile, as achievements of the engineer and it was quite unconscious that it had been withrights and distinctions.

Shanghai papers regret that Mr does not show much sign of improvement . I much for the kind wifts.

Our London contemporary, Engineer with a sense of almost overpowering months since a similar gathering had been held there, and during that period there had been many real signs of encouragement and a great many kindnesses of which one was conscious. He should like to take that opportunity of thanking all who had given that encouragethat they were yet quite satisfied; he wanted to see St. Andrew's Church absolutely full. When he came out here first one thing struck him very much, and that was the spirit of keen rivalry which existed between the tiffee ports-Singapore, a little pains to work out a few figures and found to his sorrow that in the matter of church attendance Hongkong came out very hadly. He was sure that everybody who had the true welfare of the Colony at heart wanted to see that little reflection on lits reputation removed at the shortest possible notice, and he was sure they on that side of the harbour would do was as full as it possibly could be. Mr Spink said there was going to 6th. His Excellency the Governor, had service if possible, and the Bishop would preach. They hoped to raise a little That was quite a possible thing if every hot about it. There had already been a beginning, and although only a very few they had something like \$800 to date. people, and he was quite sure that if the whole of Kowloon responded in the way be raised. Proceeding, Mr Spink said their worthy choirmaster (Mr Frost), but taken great pains and sacrificed a great deal of times and had spared no effort in lifficulties to contend with the had nor large body of boys to choose from as they had at Hongkong. Many of the choir and of defendant's interest in certain partnernot like him to go Home on his well-earned holiday without some little token of appraciation of his services. The outcome was that they had got a little gift for him, not as a nort of farewell gift but as a mark of appreciation of his services, with good Society of Mechanical Engineers have wishes that both he and Mrs Frost might Partner ! again return to the Colony, benefited by their holiday, to help them again at some

Mr spink then hunded Mr Prost a ailver engineer come into possession of his inketend on a blackwood mount, and Mrs Front a number of dainty silver tea-apoons. Mr Frost, in returning thanks, said he had given what little time he could to Str Andrew's, and it had been a great pleasure outsiders, we would like to say that the to him to do so. He could only hope that whoever took up the moir during his world really is very proud of the absence would do as much, if not more, for it than he had done. There was no doubt but that the Church requi-ed an organ, and he thought when they use one it would be the making of the Churcheso far as the holding from him his proper social services were concerned, for unless they had a good musical backing he did not think interest would be upheld in the way it should. He was sure the interest of Mr J. would carry the project through, and he MoKin, of Meers Jardine. Matheson and hoped that before he returned to the Colony the organ would be a material fact.

WEDDING BELLS.

Magnider Herbet

A quiet wedding was selemnized at Mt. Further amended rates of fees payable John's Cathedral to-day, by the Rev. F. of shareholders in the China Provident Government schools appear in the T. Johnson, M.A., the contracting parties Loan and Mortiage Company, Ltd., was being Miss Adeline G. H. Herbet who was held at the Offices of the Company, 8t married to Mr Stanley C. MacNider. A George's Building, No. 6, Connaught reception was subsequently held at the Road, to-day, King Edward Hotel after which the happy couple left for Macao where the honeymoon present Messra J. M. E. Machado, E. is to be spent.

Minnett-Woodruffe.

A pretty naval wedding took place at St. John's Cathedral to-day, the contracting parties being Surgeon Minnett, of H.M.S. Tamar, and Miss Woodruffe, of the Royal Naval Hospital. A wreath of groonery with ribbons attached hung out from the yard-arm of the Tamar in honour of the

THE MOOSA TRIAL

Argument on Points of Law.

This morning, before the Acting Chief Justice (the Hop., Mr W. Rees Davies, Gomportz), sitting as a Full Court, the points of law reserved in the trial of Moosa Ehrahim, charged with offences under the Bankruptcy Ordinance, were argued.

The Acting Attorney General (Mr F. A. Hazeland) and Mr M. W. Slade appeared for the Cown, who prosecuted, while Mr Eldon Potter defended.

Mr Potter recalled the fact that the jury convicted defendant on one count, namely of concealing his share in the partnership business of S. E. Allana and Co., and that three points were reserved. The first-point was whether the word "person" included a firm or body unincorporate, the second what was the meaning of "his property." and the third had reference to the meaning dinance. Dealing with the first point,

him personally. and separate property of each partner.

During an interval the Rev. H. O. Spink ande a few remarks. It was, he said, four difficulty at Home.

here but can at Home? Mr Potter-Yes, my Lord.

The Chief Justice—Owing to interprets-Mr Potter-No. Uwing to the actual to quote authorities in support of his consheep stealing was punishable by death prisoner was guilty of stealing a sheep. although the Act said "cattle." rofused 'because "cattle" might bear variety of meanings. He asked that that present case that they could not convict. Poi On as consulting Commissee. because the word "person" might have variety of meanings. And when they had was carried. an Ordinance which expressly said it should include body incorporate, and when at Home express enactments stated that it and W. H. Potts were elected auditors. should include body unincorporate, then word "person" was an ambiguous word your attendance. Dividend warrants are through Hongkong on his way to his new and that they could not allow a conviction now ready. when in fact it was in their powers to construe the word favourably to prisoner. The section had two possible meanings, and once that fact was admitted defendant must be acquitted. If they put upon the word person" the meaning "any one in dividual against whom a receiving order has been made " defendant could not be convicted because in fact the receiving order had not been made against him Because their Lordships could construe this

passage in such a way as would- acquit prisoner, on the authorities he had quoted they were bound to do so. Dealing with the second point, as to concealment of this property," counsel said it was proved by the Crown witness Allans that a transfer charged and convicted of concealing his interest therein. Obviously if he had transferred his interest on November 25th there was nothing to conceal. The Chief Justice-Did he continue

Mr Potter-We say not, my Lord Allans said it was a fraudulent tracefer, and that defendant remained partner to the end. Proceeding, Counsel argued that bocages the transfer was fraudulent it was not void in the sebse that the property had actually passed away from the transferor to the transferes. Mr. Potter went on to elaborate the

point, and then proceeded to contend, on the third point reserved, that there must be a majority of 6 to L, and not 5 to 2 as in this case, before there could be The hearing was adjourned until Monday

KESP IT HANDY. V/OU may not need Chamberlain's Cough flemedy now but at this season At the year you are liable to pend it within twenty-tour hours. It is, without doubt, the beat on the market for coughe, colds. occup and winoping sough. For sale by all chamists and store appears.

COMPANY MEETING.

The China Provident Loan and

Mortgage Company, Limited. The thirteenth ordinary annual meeting

Mr R. Shewan presided and there were Terry, A. A. Cordeiro, D. MacNeill, and

The Chairman said:-You will have seen from the report and accounts which were issued some days ago that the business done in 1909 shows a falling off, or rather the result is not so satisfactory as that of the previous year, for the actual turnover was really larger, it was the rate of interest obtained which was much lower than usual that has adversaly affected our profits. The fact is money was so cheap and plentiful throughout the year that it was very difficult to keep it employed, for an our customers paid back old loans high rates no time was lost in putting the money out sgain and then new loans could only be negotiated at lower rates of interest the competition for first class mortgages K.C.,) and the Puisne Judge (Mr Justice | department, As you will see we lost nothing by our investments in the China Light and Power Co., as the shares were disposed of at a profit and the debentures redeemed at \$100, their original cost being \$90. The present extraordinary low quotation for cemont shares necessitates our writing off \$20,000 from the reserve fund but i cur opinion these shares are much under-valued and will recover their true value. when capital returns to its old channels

of the word "majority" in the Jury Or. shocks of late years and now hesitates order had been made, whether adjudged a money will be in more demand and better following be guilty of a misdemeanour. In the whole the situation is decidedly this case, said Mr Potter, admittedly the botter than this time last year. Trade only receiving order was made against the amongst Chinese has been very good and firm of Moosa e Viera and Co. with the common object of discussing

tarest in this institution, and the Govern-

ments will, on its part, do anything

any way. (Applause). But I think the

value of this institution lies primarily in

and in the outcome of common government

by members who serve a useful object.

which is recognized by all. I should be

sorry to see the Government interfere in

the Government has had the opportunity

of stepping in we have done so, and in the

matter of the engineering classes now being

new university takes form these classes may

be further extended and developed. I think

that is a matter for the Government to take in

hand, because adequate instruction in en-

gineering involves, as you know better

than I do, elaborate expenses which no

private institution can undertake. The

Government vote to the Technical Institute

was \$15,000, which is a very substantial

sum. You have done me the honour of

inviting me to be the honorary president

of this association, and I have the greatest

possible pleasure in accepting your invita-

rion. (Applause). I have now great picasure

to declare to-day these new buildings open and wish you most cordish and continued

success, increased membership and an ex-

panding sphere generally, and I hope that

you will enjoy in the Institute the circulat-

ing library and all the other facilities which

this building offers.—(Applause).
Mr D. Macdonald then said—Mr Chair-

man. Your Excellency and Gentlemen-I

cannot allow the present opportunity to

pass without calling the attention of the

members to the good work carried out by

the Committee of Management during the

past year. They have displayed a great deal

of energy in promoting increased interest

among the members and the crowning

effort of their labour has been the securing

and fitting out for our better comfort the

very handsome suits of rooms we occupy

to-night. To successfully conduct an

Institute like this, the members of

Committee must devote a great deal of

their spare time to the management of it.

not only on the business side, but also in

arranging and editing the various technical

papers which are submitted to them before

being read. These papers have always

discussions that follow, and I am led

to understand that a number of new

papers are now in the Chairman's hands

and will be read and discussed during the

present session. We live in an age of

keen competition in engineering matters

throughout the world, and all the in-

dications point to a steadily increasing

and more severe competition as time goes

on. Britain grew great by her foreign

technical knowledge which is absolutely

necessary in these days to keep in touch

with the latest discoveries in our profession.

So we must depend on the young men now

future, and the Committee of this Institute

are endeavouring to sasist and make it easier

for all members who are anxious to improve

their knowledge and forward the interests

of engineering and shipbuilding. By way of

encouragement to the young members, your

Committee propose awarding gold medals

for the two best papers on technical

subjects, and we trust that the next visit

of His Excellency will be in connection

with the presentation of these medals.

There are also social events interposed to

relieve the exacting strain of work and two

silver cups are provided by the Committee

for cueists. I therefore call upon you to

award a hearty vote of thanks to the

General Committee for the good work done

in the past year, coupling with it the name

Mr Nye, in responding, said-Mr Mac-

donald has referred to the work carried

out by the Committee during the past

year and the efforts made to further ad-

vance the status and usefulness of the

institute. I feel sure that the committee

will feel now that their term of office draws

near to a finish that it will be noteworthy

for at least one excellent scheme carried

through, and that is the removal to these

new premises. (Applause). We have en-

deavoured to conduct the general business

in such a manner that the social and

scientific aspects have not been neglected.

and I can also assure the members that

the representatives they elected have

not overlooked financial affairs. Our mem-

bership has incressed considerably and

since occupying these premises shows fur-

ther signs of healthy growth. As this Com-

mittee will shortly lay down the reins of

office perhaps it is hardly advisable to dilate

on future schemes, but we feel very strong-

ly that it is to some of the younger and as

use their best endeavours to successfully

continue the reading and discussion of

scientific papers. Another point which

the appointment of a council or literary

committee to attend to this part of the

Institution's work, separately from the

understand also that some mambers are in

favour of the Institute providing facilities

for the coaching of members of the pro-

fession, when preparing to pass their Board

of Trade examinations. This will undoubt-

edly have the attention of the new Com-

pittee. In conclusion I take this opport-

unity of once again calling on all members

continue to flourish, and occupy a position

RAMBLING NOTES.

The Hon. Mr E. A. Hewest, speaking enquirer few and far between. at the annual meeting of the Hongkong a lot of preventible misery the Japan-General Chamber of Commerce, on Monday, entered an emphatic protest against | where and for the overwhelming majority the manufacture of unnocessary bank. was merely a harvest of disappointment holidays. He morely echoed in this matter bad after the Russo-Japaness war for the the opinion of the business community; disasters of the previous decade had been which undoubtedly was greatly upset last partially learnt. At Shanghai, however, November by the sudden postponement of there was a great rush. I believe, and it took the King's Birthday after all arrangements some years for the wreckage to clear away. had been made for the proper day, And yet, methinks. Hongkong cannot compare with Japan in the number of Bank Holi- been saved many a heart break.

to start the new twelvementh, then they open the doors, half a day and close the miseries endured almost unspeakable. next in order to celebrate the anniversary days not apart for the commomoration of | befal the gay capital of la belle France. Jimmu Tenno, the mythical progenitor of can but trust that the worst day; the Mikado's birthday; the day of the sacrifice to the Gods of Harvest; the day of the effering of the New Rice; the Fourth of July, Good Friday, Easter Monday, Christmas Day, August Bank Holiday, the 9th of November, and one or two other days when the Emperor, as High Priest of the Nation, performs various acts of worship. Even if the fereign banks do not alose on all these days, the native banks .do and business comes to a standatill any way. So Hongkong is really very modest; in the matter of Bank Holidays.

The champion country in the world for holidays is, however, Holy Russia. Looking through the Orthodox Greek Calendar and marking the Saints' Days that are officially observed one wonders when the Russian merchant or manufacturer finds time to transact any business at all.

The organ recital at St John's Cathedral on Tuesday drew a good congregation and the beauty of the music almost helped one to forget the extreme chilliness of the church, but not quite. The weather will have begun to pick up a little in the way of warmth before the next Recital, thank goodness.

There is a very great deal of influenza (among the grown-ups) and measles (among the small folks) about in the Colony these days, due, I suppose, to the prevailing low temperature. Fortunately we have been spared the dismal, drizzle which usually sets in at this time of year, and so the lot of the invalids is not so bad as it

The balloon ascent and parachute descent on Saturday was a huge success. Truly nearly the whole of the Colony must have turned out to see it. The Praya was black with people all the afternoon, but the crowds there were as nothing compared with the mobe gathered in Kowloon. The Itar Ferries must have done a splendid

These are the days of prize-givings and speech-making, when Headmastors get auopportunity of demonstrating what a splendid lot of fellows they have been educating during the past year and how well their systems work. But I can't help wondering, Mr Editor, whother the public who read the newspapers religiously are "fed-up" on educational matters ere the last school has had its field-

With the new Parliament practically completed the folk at Home have, at any rate for a time, resumed the ordinary run of normal life. But there are a couple of little election tit-bits well worth -reproducing for the amusement of readers. One being at the expense of a Liberal and the other "taking off" a Tory. I shall not be accused of political partisanship in quoting them.

The first concerns Tariff reform," heckling when a questioner indignantly shouted out. "Yes, you want to make me pay more for my food, don't you." The audience roared as the candidate retorted, "Not at all, my dear sir. We have not the least intention of taxing thistles."

the floor. He began to refer to Home Rule when some one sang out, " Home Rule for Hell." "That's right, my friend," the Mr W. Dobbe" Chancellor of the Exchequer replied, "I Mr E. Hearl like to see a man stick up for his own Sir Henry May country."

With St. John's Cathedral anxious to raise another \$5,000 so as to put its organ in a thoroughly efficient state; with St. Andrew's, Kowloon, endeavouring to raise a similar sum so as to buy a new organ to replace the harmonium at present in use the following story may be apropos, It was in Western America, and the local "bishop" made the announcement-" want to tell all you folk about our organ. She's busied three of her lungs, and if she don't squeal right there ain't no call to disappearing target. 4 rounds each. Winning shoot the organist."

That was a pretty compliment The Times raid to the athletic muidens of England the other day. "The girl children of other nations have charms of their own, many and manifold. But it is only in England that the tom-boy grows like a white wild wind-flower. Deo grutias."

"La Mascotte" is still going strong. Truly the little performers are nothing short of marvellous and they deserve all the compliments now being showered upon

experiences have caused a special system. of recruiting to be developed which renders opportunities for the casual lose troaty ports saw after the war 1894. Sookers after fortune swarmed every-It is all vary and and yet so preventible. Merely the exercise of prudent commonsense and forethought and many would have

To begin with, at Now Year, in the Land | Paris during the past fortnight have touched of the Sunrise, they have three clear days a responsive chord of sympathy throughout the street the new trustrements than the civilised world. The extent of the damage must be phenomenal and the perts foretold a hard winter in Western Europe, but none could possibly have of some former Mikado; then there are foreseen the calamity which was about to now over, and that Paris will be able the Japanese rulers; the granting of the to put things right again without too much Constitution; the late Emperor's death- sacrifice. Details of the disaster will, of course, come by the mails, and I fear they We appreciate the honour very highly will prove but sad reading.

> Hongkong has sent a strong contingent to the Manila Carnival this year and I feel sure that all these gallant gentlemen are in for "a good time." Our American the objects for which the institution was this occasion as much for the future glory of Manila as because they thoroughly enjoy being hosts to all who can afford the time to run over from the treaty ports of China

My friend Alastair McAlastair favours me with another contribution this week. H consultation (as the Doctors ca' it) the ither day, and we cam' to the conclusion that a Kiltie corps or a core o' John China men wad mak a fine mixey maxey lot, and we agree was yin anither in thinking it widna' be very dignified to see loons skinny legs or pig tails paradin' oor public thoroughfares in the kilt. Jist to illustrate what I'm efter I gae ye a story as I heerd it. A Highland soldier, while lying dangerously ill in hospital, expressed a desire to hear the bagpines once before he died. The hospital doctor agreed, as there were only fourteen inmates of the wards, and none of them were serious cases. regimental piper was found to play the bagpipes, and for a long time he paced the ward playing tunes of the homeland. The next morning the piper called at the can see we have secured these. hospital. "Well, doctor," he inquired, how is my countryman this morning? Very well indeed," roplied the doctor he went to sleep after your entertain ment, smiling happily, and awoke this morning a new man. He will rapidly recover now." "Good!" said the piper. "Good!" "But," added the medical man, the other thirteen patients are dead!" The khaki clad laddies are a' richt as they are, sae len let them be. Whit we

requires is a bigger muster of them.

Shooting.

RESERVES THE MEETING.

In perfect weather and idealic shooting conditions the Hongkong Reserve Association held their first prize meeting at King's Park Range, Kowloon, on Saturday afternoon, January 29th. Four ladies were present and there would have, been more but for the numerous other counter attractions. Sir Henry May conveyed Lady May's regrets that she was unable to be present. Lady May, it will be remembered, was distributing the prizes at the Anglo-Chinese School. The meeting was a great success and every body present enjoyed a very pleasant and interesting afternoon. Great keenmess was exhibited among the members and their friends in shooting for the various events. The team competition and the Joke Target event were accountable for a great deal of amusement. In fact during the team shooting the fun and laughter produced made it almost impossible to shoot at all. The bull on the Joke Target, (which, by the way, was a large picture of Mclguiper driving a golf-hall Unionist speaker was undergoing a nasty the top of a Watson's E. whisky bottle) was so cleverly concealed that the neares shot went at least eight inches off the mark, Light refreshments were provided by the

At the close of the meeting the prizes were given away by Mrs G. H. Wakeman, The following are some of the scores and

INSTITUTION OF ENGINEERS upon them, and for meetings of men AND SHIPBUILDERS. these questions. I am glad to be able to secure you of my keen personal in-

New Premises Opened by the Governor.

In the presence of a very large gather Ing His Excellency Sir Frederick Lugard formally opened the new quarters of th Institution of Engineers and Shipbuilders on Friday evening. Mr Fludlay Miller presided and amongst those present were the Hon. Mr W. J. Gresson, Hon. Mr P. N. H. Jones, Lieut. C. W. Beck with, R.N., Mr D. Macdonald, Mr J. W. hope they are performing and will continue to perform useful work. Possibly when the Richardson, Mr P. Nye, Captain Mitchel The terrible disasters which have befallen Taylor, A.D.O. Mr E. Ralphs, Mr W. D. Braidwood, Mr A. Bellamy Brown, Mr A. Chapman, Mr F. James, Mr Dodge and

Mr Miller said-Your Excellency, and

Gentlemen In the absence of our Pre-

sident, Mr.T. Skinner, the pleasant duty

of presiding here this evening falls to me On behalf of the members of the Institution. I thank your Excellency for coming hore to-day to open these our new premises. knowing that your time is very valuable, but we are aware that you always take: keen interest in anything tending advance the Colony and this is one cousins lay themselves out specially on founded. I take this opportunity of thank ing you for the interest you have already shown in this Institution by contributing Engineering Magazines to our reading room during the past year. Before asking Your Excellency to declare the premises open would like to make a few brief remarks writes :- Deed, ay, Mr Rambler, its just regarding the purposes for which the Inhavers. Ma frien' Pat and Mysel had a stitution was founded, and touch on its work and progress. This institution was incorporated in 1891. Previous to that time the engineers of the Colony had on two occasions started similar institutions but both closed after a very brief exist The present institution is now in its 19th year. In 1891 it began its career in premises situated in what was then Praya Central. These rooms later on proved inadequate for the members and in 1899 we removed to larger and more suitable rooms in Des Vœux Road, which were opened by His Excellency Sir. Henry Blake. For some years past, there has been a feeling expressed by many of our members that premises with a frontage to the harbour were desirable, and now as you splendid position our rooms now occupy should prove a great attraction, and also I hope induce many who are not yet members to join. us. The objects for which the Institution was founded were

improve the scientific knowledge of

members, to further engineering

shipbuilding science, to encourage

social intercourse, more especially amongst scafaring members, to provide a library reading, refreshment, billiard, and other recreation rooms, and such other rooms as may be deemed necessary for the comfort and convenience of members. We have done our best to fulfil these objects but our efforts in the past have not always been as we hoped for. However, with a rapidly increasing membership and the greater interest now being taken in the Institution by members, we hope in the near future to attain to a the founders of the Institution aspired. During the present session we have bad two papers read by members, one by Mr C. C. Nelson, his subject being causes of deterioration in boilers and measures tending to remedy them," and one by Mr G. E. Glover on "Water Tube Boilers. Both papers were discussed at later meet ings and proved interesting and instructive to all who heard them. Within a very short time we hope to be able to announce the reading of three more papers, all of which should prove of interest, and other papers will, we hope, follow in the near nture. -We have had a technical reference ibrary since the Institution was founded and as our membership is steadily on the increase we hope to be able to keep this library more up to date than it now is. Our reading room supplies reading matter, technical and otherwise to suit all members. A few months ago we started a circulating ibrary, apart from the technical library, and judging by the amount of patronage is receiving from the members, it appears to be much appreciated by them. membership now totals 260. We have already admitted 16 new members year, and many more applications membership are now waiting to come before the Committee. During the 19 years our existence we have gone through times both dark and bright, but I venture to say that the prospects of the Institution were never brighter than they are at present. (Applause). Haring made these few re-

marks I will now ask Your Excellency to declare the premises open-His Excellency said-Mr Miller and gentlemen: When I first came to the Colon I made some inquiries about this Institute and especially about the evening continu ation classes which you were at that time holding. I think with a view to prepar ation for matriculation for the Londo University, and I have from time to time seen notices in the papers of various papers to be read wished much to attend the reading of nome of those papers, but the subjects were very technical that I have on each occasion found I should be very much out of my depth. The Vice-President has just told you that the subject, of two of the papers in keeping with the engineering profession, by Hermann Lohr and a Solo and was . Boilers, but my knowledge of (Applause).

T. W. Richardson proposed a vote of seldom performed but most tunaful work, boilers is very rudimentary. (Laughter). read which will be understood by a layman, T may have the pleasure of being present and hearing it. (Applause It affords morgrest pleasure to be her to-day to meet you in your own quarters in these new and commodious rooms so that I may have an opportunity telling you how keenly interested I am in. this institution and its progress. Said He Never Saw a Child's Head in Such a State-Lanced It but Did No Good - Body Covered, Too - Scratched Till Blood Ran -Grateful Mother Praises

Hongkong, February 23, 1909.

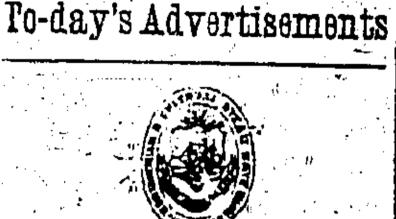

CUTICURA'S COMPLETE AND ECONOMICAL CURE

"Cuticura is the only thing that cured my daughter when she had suffered with eczema for six months. She is now turned five years. It started with her ears and it spread all over her body. She used to scratch herself till the blood ran down her fingers. I tried everything for it but nothing did any good. We had spent pounds on her, first with one thing, then another. I took her to two doctors and they gave me cintment and lotions but still it went worse. I called a nurse in one day, to see what she thought about her, for I was thed of seeing her with her head all bandaged up, as she was a complete mass of running sores. The nurse took her to a specialist in Manchester and he said he had never seen a child's head in such a state be-

in Manchester and he said he had never seen a child's head in such a state before he lanced it. He gave us a lotion to dress it with but it didn't seem to get a bit better with all the pains we spent on her. I read of the Cuticura Remedies and declared I would try them and I am thankful I did persevere with them for, before I had used the first lot, I saw a great difference in her. I had five sets of the Cuticura Remedies and she was cured before I used them all. I use the Cuticura Boap now and shall always stick to it as long as I can. Her heir is growing beautias I can. Her heir is growing beautifully now. Cuticura Scap. Cuticura Ointment and Cuticura Pills cured her when all else failed. I only wish I had tried them sconer. I can safely say

they are the cheapest and best that you can got for any skin disease. Fishall be pleased to recommend Cuticura to all suffering from any skin troubles as I have great faith in it. Mrs. S. Astles, 5, Castio Terraco, Meadow Bank, Winstord, Cheshim, Fine July Sank, Winstord, Cheshim, Cheshim, Sank, Winstord, Cheshim, Cheshim, Sank, Winstord, Cheshim, Sank, Winstord, Cheshim, ford, Cheshire, Eng., July 8 and Aug. 27. 1908." Complete External and Internal Treatment for Every Humour of Intents Children and Adults consists of Cuticum Scap to Cleanse the Skin, Cuticum Cintiment to Ural the Skin and Cuticum Resolvent Pills to Purify the Blood. A Single Ser often Cures. Sold throughout the world, Debots: London, The Christmouse Eq.: Faris, S. Rue de in Paix; Australia, R. Towns & Co., Sydney; So., Africa, Lennan, Ltd., Cane Town, etc.; U.S.A., Potter Drug & Chem. Corn., Boston.

Ser Post-free from London depot, liberal sample of Cuticum and 32-page book on discusses of the skin and soalo.

CORRESPONDENCE.

PRIMITIVE METHODS.

'(To the Editor of the "CHINE MAIL. Sim. - It is not necessary to go into interior of China nor to explore the back woods of Darkest Africa to see a sight that must have been common enough when China first started her numerous water ways some thousands of years ago. One; has only to take the electric car to Causeway Bay and go for a short stroll along the typhoon harbour. Lined along, within a few yards of the sea wall, are a number of junks dredging the mud from the bettom. The method employ-95 | ed is simplicity itself, patented when first employed, sociewhere about the time when the Government started discussing the advisability of dredging this harbour, but now free to all who may desire to avail themselves of it. Naturally not much plant is required, only the provision of a long pole with the ubiquitous bamboo basket attached to its bottom end and another bamboo slung from the foremast that is made to act as a fulcrum for raising the aforesaid backet on board; the junk's capetans, owindlasses, are pressed into service. Four or five coolies are employed on each junk. One man, apparently the owner, of the junk sinks shaped as a scoop, to which a rope has been attached, one end of this rope leads to the after windlass the other to a small windlass near the forepeak. After wiggle-waggling the pole for some minutes the foreman gives the word to work the after windlass and the basket is drawn the length of the junk and brought up to the surface. New a hook hanging from the ines on the mast is inserted into the basket which holds about 40 lbs of mud, and it is brought inboard. The forward windless hauls the contraption back to its original position. When the junk is loaded it yaloos off to sea-to dump its load. With good expert men employed on the job, and if the silt does not increase faster than at its usual rate, the Government. are in hopes that this harbour, by such means, will be available for small craft at any state of the tide, and will not in future give off that obnoxious marine effuvia that

the nasty dissatisfied people of Hongkong

COMMERCIAL.

YARN MARKET. Mesers Polishwalla and Kotwall, Cotton and Yarn Brokers, report:—Since the issue of our last report, dated the 25th ultimo per mail steamer Devanha, a very fair amount of business, both spot and "to arrive," has been transacted, which was induced by conce sions in prices made by importers. The bulk of the contracts, however, were entered into with a view of 650 meeting the "congratulatory" purchases usually made on the resumption of business after the Chinese new year holidays and

must, therefore, be considered more or less speculative. The concession in prices referred to however has only beeen established here and there and was insignificant; latterly, some alight recovery has to be recorded in those tickets which are immediately required. With the New Year so close at hand, business for the present is virtually suspended, but as the year now drawing to a close has been a fairly profitable one in most trades, it is confidently anticipated that on the resumption of business, good trade can be looked forward to. No. 6s. and 8s .- No business has come within our knowledge. No. 10s.—The bulk of business in this count has been for Yunnan. and confined to a few favorite tickets. No. 12s,-From being in good demand down to a few weeks ago, this count has of late been getting out of favour, owing doubtless to the high prices demanded by importers. The business of the fortnight is small. No. 16s .- A small business in two or three tickets only has been reported. No. 20s. -This count has been the medium of the bulk of the botal business reported, being required for the Hinning market over the holidays. Total sales 8,500 bales. Unsold stock estimated at 12,000 bales. Sold but un-

delivered in the Godowns, and to arrive 27,000 bales. Arrivals.—The extra steamers Yetorofu from Bombay, and Laisang, Japan and C. Apear from Calcutta have brought in 2,000 Shanghai, shipments from Hongkong to Shanghal, and coast ports &c., amount to

Local Mill.—This yarn has again been placed on the market in small loss at last prices, total 500 bales of No. 10 at \$121. Japanese Yarn. -- No business, has come our knowledge. Shanghai, - During the greater part of 408 the fortnight, reports have reached us of a

market in the Northern port, and prices gave way some Tis. 2 per bale. Reports of a better feeling, however, have been recently received. Raw .. Cotton .- No . business has been parcels of Bengal has been shipped for Japan market, Quotation, Bengal @ \$31 to \$34 Chinese @ \$33 to \$37.
